

Referral

We approached Brighton to do rock art at the back of our garden during February 2016. Not only did he do an excellent job but he really creates rock **ART**. He is really skilful in his profession and the back and side walls of our garden went through a total transformation. His work is very thorough and he left the working area in a good condition after completing the job. Furthermore we can also recommend him as an honest business man whose word is his honour. As he requires upfront deposit he walks the extra mile by sourcing all the required materials himself and final payment is only done when the client is fully satisfied with the work. We can recommend Brighton's rock art work to anybody who wants to have rock art done in their gardens.

Also see photos attached of the work done,

Pieter and Martie Meyer
